

Aprendizaje Bluebonnet Matemáticas de secundaria Grado 6 Publisher Response

We wish to thank the Texas Education Agency, teams of reviewers, and members of the public for a thorough and insightful review of the Aprendizaje Bluebonnet Matemáticas de secundaria Grado 6 instructional materials. It was an honor to participate in the State Board of Education's (SBOE) 2025 Instructional Materials Review and Approval (IMRA) process.

We are pleased that the Aprendizaje Bluebonnet Matemáticas de secundaria Grado 6 instructional materials were recognized for ensuring 100% coverage of the Texas Essential Knowledge and Skills (TEKS) for mathematics. We are also proud of achieving a 100% score on the quality rubric and many excellence flags on the suitability rubric.

The Aprendizaje Bluebonnet Matemáticas de secundaria Grado 6 instructional materials have been thoughtfully transadapted from the IMRA 2024 SBOE-adopted Bluebonnet Learning Secondary Mathematics Grade 6 English edition. The Aprendizaje Bluebonnet Matemáticas de secundaria Grado 6 instructional materials, like their English edition counterpart, are built on scientific insights about math learning, growing out of cognitive and developmental science. These materials are strategically and coherently sequenced to build upon learning within modules and across grades. The TEKS-aligned scope and sequence options for both 165 days and 150 days concentrate time and effort on the most important concepts and skills for each grade level. The instructional materials equip teachers with the resources needed to ensure all students can engage in grade-level tasks that pursue rigor by balancing fluency, conceptual and procedural understanding, and application. Students become productive problem solvers through multiple opportunities for discussion, practice, representations, and writing that prompts them to explain and revise their thinking. Throughout the Aprendizaje Bluebonnet Matemáticas de secundaria Grado 6 instructional materials, ongoing formative and summative assessments allow for reflection and analysis that support instructional decision-making. These flexible and adaptable materials allow teachers to customize their instruction and cater to the unique needs of their students.

For more information about Aprendizaje Bluebonnet Matemáticas de secundaria Grado 6, refer to the Program and Implementation Guide. The team is committed to continuous improvement, with an ongoing effort to support teachers and improve student academic outcomes.
