

Empowering Literacy with *Reading Horizons Discovery*®

Reading Horizons Discovery® is fully aligned with the Texas Essential Knowledge and Skills (TEKS) and the IMRA Quality Rubric. This alignment showcases the effectiveness of our Structured Literacy approach, based on the Science of Reading, and underscores our commitment to providing Texas educators with the high-quality, evidence-based instruction they need.

For over 40 years, we've been dedicated to empowering educators with the tools and strategies proven to foster literacy for all students—especially beginning readers, struggling readers, and Multilingual Learners (MLLs). Our approach, grounded in the trusted Orton-Gillingham method, offers a clear and structured framework that accelerates reading proficiency for a wide range of learners.

Our Mission: Literacy is Opportunity

At *Reading Horizons*, we believe literacy opens doors to personal growth and academic success. Our mission is simple: to ensure every student, no matter their background or challenges, has the chance to succeed through effective reading instruction. By equipping educators with practical strategies, comprehensive resources, and ongoing support, we aim to make literacy accessible to all.

Partnering with Educators for Success

We know that teachers are at the heart of this work. That's why we don't just provide a curriculum—we partner with educators every step of the way. From onboarding to ongoing professional development and real-time support, we're here to make sure teachers have what they need to thrive. Our platform is designed with educators in mind, integrating resources and support directly into their daily teaching.

A Dynamic, Data-Driven Approach

Our teacher-friendly platform streamlines lesson planning and provides real-time insights into student progress. This helps teachers tailor instruction to meet the needs of every student. Our multimodal lessons are designed to engage all learners, especially struggling readers and MLLs, ensuring they receive the instruction they need to succeed.
